The Value of Beauty

EVERY WOMAN knows the true value of attractiveness—the beautiful maiden or the charming woman has no equal. Perfect beauty signifies perfect health. Many a woman laments the fact that she is lacking in those attributes which make her supreme—and yet is it not largely her own fault?

FOR THE FIGURE—why should not any woman bring out all the perfections and conceal the imperfections of her figure by one of our Gossard Front--Lacing Corsets. When we have correctly fitted your figure your gown will be given both added style and beauty.

FOR THE FACE—Wrinkles, skin troubles, blemishes—all fade before our Buena Tonic. It acts as a food and tonic to the pores of the skin and brings the blush of beauty to the cheek.

THE PATH TO BEAUTY is short. Consult us today. Let us show you the way—added attractiveness will quickly repay you.

BUTTER AND MILK

ARE ESSENTIALS IN EVERY HOUSEHOLD.

ARE YOU A PRODUCER

—OR—

Only a Consumer.

IN EITHER CASE THIS INTERESTS YOU.

The White River Creamery Co., Muncie, Ind., is completing a large, modern, pure Pasteurized Cream Butter Manufacturing Plant at about even date with the issuance of this Directory.

This opens up another market for Cream, and especially interests the producer, because the plan on which it is operated enables the payment of the highest price for Butter Fat, and the greatest net returns for the man who milks.

The up-to-date equipment in this plant is of especial interest to the consumer and the lover of good butter, because nothing has been omitted that could in any way add to the quality. The Cream is carefully selected and then Pasteurized and Ripened under the most favorable conditions made possible by especially constructed machinery for regulating temperature.

A CORDIAL WELCOME

Awaits every visitor. It is always a pleasure to show and explain our Factory.

All communications promptly answered.

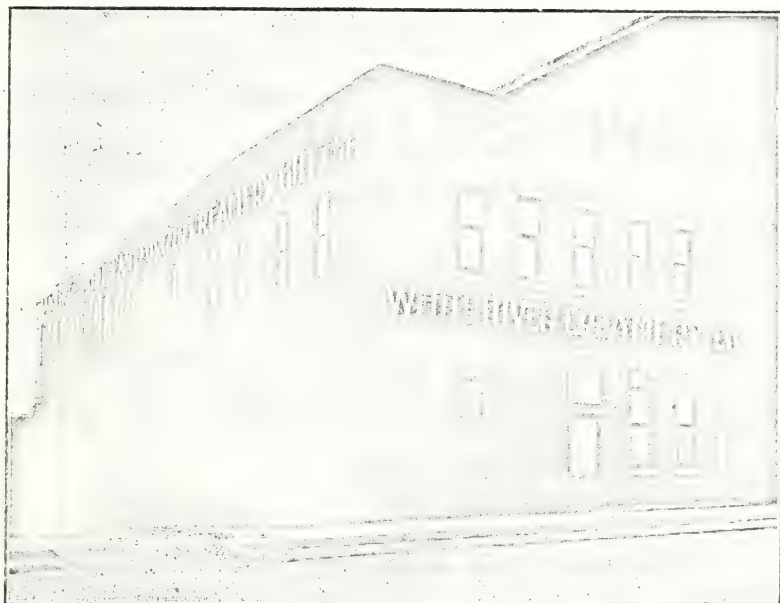

You will be well rewarded for visiting or writing.

of daily output and is not a matter of chance*

YOU will find it to your advantage to consult us when in need of engravings of machinery or other mechanical work, either perspective, sectional, X-Ray (or ghost) views, or any combination of these.

While good photographs are always desirable copy to work from, it frequently happens that cuts must be made of machines which are in the course of construction, or that the conditions are such that it is impossible to get photographs. Under these conditions our knowledge of mechanics enables us to make suitable drawings from blue prints, linen tracings or rough pencil sketches, from which strictly first class halftones may be made.

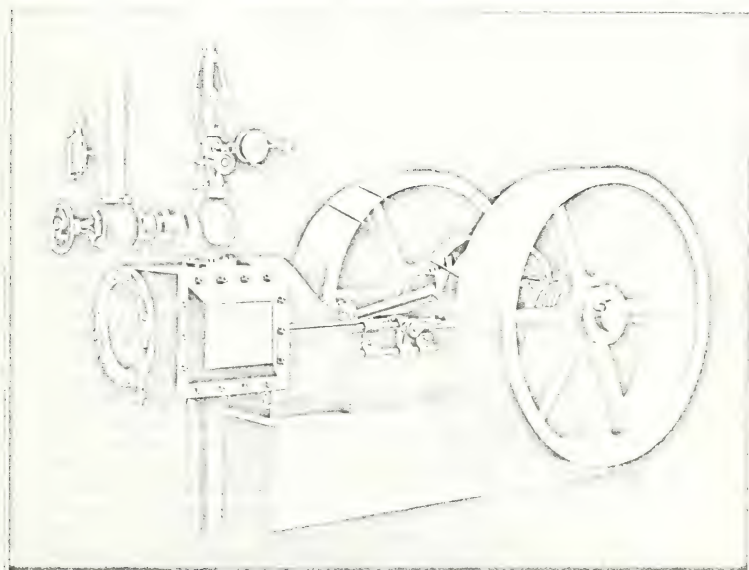

The same high quality is maintained in our cover designs, letter heads, birdseye views of factories and plants, magazine ads, newspaper ads, photo retouching, halftones from portraits, views of buildings, interiors, zinc etchings from pen drawings, testimonial letters, newspaper clippings, etc. In fact, anything you may need in the engraving line we can supply promptly, and you can depend upon receiving a quality of work which will give absolutely satisfactory results.

IT WILL PAY YOU TO TEST OUR SERVICE
